Greetings my friends from the Georgia Indo-American Chamber of Commerce (GIACC) which is an organization focused on expanding business and investments between the State of Georgia and India.

Our message today is to ask your opinion on how we can increase business relationships between Indian companies and the state of Georgia. We value your input and need a better understanding of the goals, aspirations, challenges and opportunities confronting your company in these tumultuous times. We will proactively use the feedback you provide about how we can help you and your business overcome obstacles, and solve operational and sales challenges to find common ground to work towards increasing your business with to complete it with your most candid answers [here](#) We will use this information to partner with our Georgia state government leaders on new business relationships, open new markets, and help you succeed no matter how ambitious your goals are for the near future.

The State of Georgia is consistently ranked as the number one state to conduct business in the US and it provides a land of opportunity for Indian businesses. We want to help you and your business thrive here, just like your fellow countrymen have done in the past.

The culmination of the research will be presented in a seminar the GIACC and the State of Georgia are holding in October in Atlanta. This important event will bring together business leaders from Georgia and India as well as the Consul General's office of India-Atlanta and the government officials from your host the State of Georgia.

We look forward to receiving your valuable [feedback](#) and will share the results with you upon compilation.

Thank you for supporting our efforts for a brighter future between Georgia and India in 2022!

Best regards,

David Gault
